

# ARE YOU SWEATING YOUR STORAGE NETWORK?

Gen 5 FICON SAN is  
at End of Support\*

\*See Gen 5 FICON SAN Support Statement [here](#)

**The Time is Now. Eliminate the Risk and Relieve the Stress.**

**Upgrade today to reduce risk to applications and data access.**

## **Don't bottleneck your applications.**

8G and 16G SAN may hinder new  
server and storage technologies.

## **Don't let your support expire.**

8G and 16G SAN are at or  
nearing End of Service.

## **Don't miss out on tools that simplify.**

8G and 16G SAN do not offer  
powerful autonomous features.

**The Time is Now to invest in Gen 7 storage infrastructure.**

### **Greater Scalability**

Scales more devices, applications and workloads  
with **2-4X** performance with 64G.

### **Faster Transactions**

Maximize FICON and high-transaction workloads  
with **50% lower latency**.

### **Intelligent Capabilities**

Transform data into **actionable insights** to  
optimize performance and ensure reliability.

### **Autonomous Features**

Automate actions to **simplify management**  
and resolve issues without intervention.
