

IBM Certified Pre-Owned servers and storage systems

Certified, pre-owned IBM® Power Systems, IBM storage solutions, IBM mainframes, and other IBM parts and systems are available to purchase from IBM

Quality. Simplicity.

Look to IBM for pre-owned IBM servers and storage parts and features.

Whether your requirements are maintenance of legacy systems and applications, sudden capacity peaks, data center moves, credit capacity, or budget challenges, IBM Certified Pre-Owned servers and storage parts and features offer solutions and support worldwide, customized for your needs. The IBM Certification Mark shows that the product has been verified through our IBM exclusive best-of-breed remanufacturing process. IBM Certified Pre-Owned servers and storage systems sold by IBM or IBM Business Partners are also offered with leasing, payment plans and the full IBM services portfolio.
