

Tech Data IBM Cloud Pak for Data on Azure

[Click to Run Solutions from Tech Data](#)

Business Challenge

Data is your most valuable asset and yet it is estimated that 73% of the data you create goes unused. Currently data is often stored in disconnected silos with limited to no access and data movement is required in order to use it. This results in a heavy dependency on IT along with additional risk and costs to analyze your data.

Click To Run Solution: IBM Cloud Pak for Data on Azure

Tech Data IBM Cloud Pak for Data, Click to Run Solution allows you to quickly deploy the infrastructure needed to run IBM Cloud Pak for Data on Microsoft Azure. This IBM Enterprise Insight Platform helps you modernize your data, eliminate data silos by connecting all your data into a single view without moving it. Apply data governance policies, analyse data with speed and agility, extract insights, and optimize people, processes and technology.

Key Features:

- Microsoft Azure Subscription

[Click to Run Solutions from Tech Data](#)

Why leverage Tech Data's Click – To – Run Solutions?

Reduce Cost & Time

Reduce costs, time & risks by customizing & deploying pre-architected, validated & tested solutions.

Offer More – Get More

Enhance your portfolio and increase your revenue by offering more options and solutions to your customers.

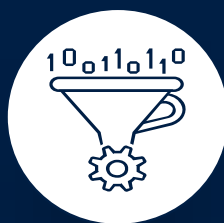

Faster Time to Market

Broad set of enablement resources to quickly build Cloud Solutions practices within your organization

Pre-Designed

Validated & Tested

Customizable

Industry Leading

Cloud Expertise

Our cloud engineers develop and leverage Tech Data's proprietary cloud automation stack to create one simple user interface capable of deploying a variety of cloud infrastructure components to **Simplify Cloud Deployments**, deliver higher value to our cloud partners, and generate services opportunities.
